# FAQs

*frequently asked questions*

## **What service should I book if I'm not sure what my skin needs?**

There are two options that we recommend for our first-time guests, depending on if you're seeking a relaxing spa facial or a more clinical, result-focused treatment. Our Custom Facial offers a rejuvenating, well-rounded service in a spa environment. Your aesthetician will fully analyze your skin and tailor this treatment to your needs. The second option for an introductory service is the Oxy-Glow Treatment. Performed in a more clinical environment, this treatment offers superior results for all skin types. Still not sure? Start with a Consultation.

## **Can I receive advanced treatments on my first visit?**

Our advanced treatments like Microneedling, Chemical Peels, Derm Perfection, and even sometimes Dermaplaning require the skin to be prepared in order to avoid an adverse reaction. It is best to have an introductory service and develop a treatment plan with your aesthetician prior to these services.

## **Will One Treatment Offer Me Exceptional And Permanent Results?**

We wish! While one treatment will rejuvenate, brighten and stimulate cell turnover, consistency is key to developing true change in the skin. At-home skincare is as important as in-office treatments for achieving your skin goals. At KB Beauty, results are our priority and we'll design customized treatment plans and skin care regimens just for you.

## HydroFacial

**\$175**

Exfoliate, deeply cleanse the pores, and infuse the skin with antioxidants for a complexion refresh! This treatment also includes an age-management-focused modality to tighten and lift, plus a customized hydrojelly mask with relaxing neck and shoulder massage. Add-on recommendations: Dermaplaning, our Nano Infusions, and LED Light Therapy.

## Premium Power Peel **\$200**

Experience total skin renewal with this elevated Chemical Peel. This service refines skin texture, treats acne and hyperpigmentation, smooths fine lines, evens skin tone, and improves scarring. Requires one hour in our studio while this cream-based peel processes. Please note: you will experience a minimum of 6 days downtime, wherein the skin will be dramatically peeling.

## Oxy-Glow Treatment **\$175**

This unique facial provides 3 effective treatments simultaneously: gentle exfoliation, natural skin oxygenation, and deep facial rejuvenation with the infusion of essential skin-revitalizing nutrients. Also includes RF skin tightening for surface smoothing and lymphatic drainage, plus a customized hydrojelly mask with relaxing neck and shoulder massage.

## Microneedling **\$250/300**

Trigger your skin to produce natural collagen with this brightening, toning, firming and scar-revising treatment. See results as soon as one week after your service, which will continue to culminate over the next six months. A series of treatments may be recommended. Please note: There are some contraindications that may prevent us from performing this service, and a prior facial or skin treatment is recommended before booking. Choose between treatment areas of just the face, or full face, neck, and décolleté. Add a targeted therapy serum upgrade for maximum results!

## Hydro-Glow Treatment **\$175**

Get the best of both worlds with this hybrid treatment! Enjoy the deep pore cleansing of our HydroFacial along with the natural skin oxygenation, rejuvenation, and infusion of essential skin-revitalizing nutrients of our Oxy-Glow treatment. Includes an age-management-focused modality to tighten and lift, plus a customized hydrojelly mask with relaxing neck and shoulder massage.

## Dermaplaning **\$75**

An advanced exfoliation treatment that uses a blade to remove dead skin cells and vellus hairs which trap dirt and oil. The benefits of this service include: reduction of fine lines and acne scarring, deeper product penetration, smooth and bright skin, promotion of cell renewal, and no downtime.

## Instant Radiance Treatment **\$125**

Amazing results in an instant! This treatment combines Dermaplaning, a light Chemical Peel (no downtime with this unique formulation!) and a Stem Cell Nano Infusion to brighten, tone, smooth, and hydrate. Perfect appointment for someone with limited time. Try adding a customized hydrojelly mask for relaxation and extra hydration.

## Microdermabrasion **\$45**

This non-chemical, non-invasive treatment removes the outermost layer of dead, dry skin cells to reveal younger, healthier-looking skin.

## Chemical Peel **\$125**

A customized peel based on your skin's individual needs. Proper preparation for this service is required. Please be prepared for up-to one week of downtime.

# PRX Series

*Frequently asked questions*

## What Is The PRX, Derm Perfection Treatment?

A treatment developed in Italy by noted dermatologist Rossana Castellana, which offers biorevitalization with no peeling, no downtime, no pain, is safe for all skin types, and is not photo-sensitizing (safe in summer). It works from the inside out, by delivering active ingredients deeper into the skin than is usually possible.

## What Results Can I Expect?

Derm perfection delivers tight, plump, lighter, and brighter skin that is truly radiant. Because it is building skin integrity from the inside out, it lifts creases and wrinkles, smooths crepey areas, and can permanently eliminate atrophic (like from acne or chicken pox) scarring over time.

## How Does The Treatment Series Work?

Because 4 treatments 7-10 days apart are required to achieve full results, this service is not offered individually. Treatments are 30 minutes each, with the exception of the 4th treatment in the Unicorn Package. You will see immediate improvement in the skin and leave our studio glowing. There is zero downtime with this treatment and you can resume normal life immediately after.e.

## *The Treatments*

### Derm Perfection Series

This package includes 4 Derm Perfection treatments, plus all at home skincare products. Annual intensive series must be scheduled 7-10 days apart. When online booking, please schedule your initial appointment as Derm Perfection Series and the remaining 3 as Derm Perfection Series Appointment.

### The Unicorn Facial Series

Enjoy all the benefits of our Derm Perfection Series, plus a Microneedling add-on to take your results to the next level.

Add-on recommendations: Dermaplaning, our Nano Infusions, and LED Light Therapy.

## Prenatal Facial

**\$125**

We follow the same steps as the Custom Facial, but leave out the high frequency and use only pregnancy-safe products. If pregnancy has caused any additional breakouts or hyperpigmentation, we happily incorporate a light peel to target these issues. Add the Belly Jelly Mask for extra TLC, since your body is working hard to grow your little one!

## Holistic Balancing Facial **\$175**

Treat the skin and cleanse your soul with this facial! We begin this treatment by burning palo santo to clear bad energies and provide a positive affirmation to set intentions for your day. Includes double cleansing, thorough skin analysis, custom exfoliation (Dermaplaning, Microdermabrasion, or enzyme), steam, extractions & high frequency, Nano Infusion of CBD serum, gua sha massage for lymphatic drainage and facial contouring, hydrojelly or other mask, finishing products, and sun protection. Crystals sourced from the energy vortexes of Sedona, AZ and aromatherapy are incorporated throughout.

## The Ultimate Red Carpet Facial **\$175**

Trigger your skin to produce natural collagen with this brightening, toning, firming and scar-revising treatment. See results as soon as one week after your service, which will continue to culminate over the next six months. A series of treatments may be recommended. Please note: There are some contraindications that may prevent us from performing this service, and a prior facial or skin treatment is recommended before booking. Choose between treatment areas of just the face, or full face, neck, and décolleté. Add a targeted therapy serum upgrade for maximum results!

# Acne Treatments

At KB Beauty, we treat acne a little differently than you may be used to. We take a holistic approach, to achieve lifelong clarity without depending upon prescription medications. To reach your skin goals, using the products recommended by your aesthetician is necessary, and there may be some minor lifestyle adjustments suggested. We like all our guests to be aware before beginning these treatments that acne can take go days, sometimes longer, to fully clear. Our protocols and products have achieved unmatched results, so rest assured: you're in good hands!

## Acne Consultation & Treatment **\$125**

Exfoliate, deeply cleanse the pores, and infuse the skin with antioxidants for a complexion refresh! This treatment also includes an age-management-focused modality to tighten and lift, plus a customized hydrojelly mask with relaxing neck and shoulder massage. Add-on recommendations: Dermaplaning, our Nano Infusions, and LED Light Therapy.

## Acne Treatment

**\$125**

Acne Treatments both treat surface breakouts and help speed up the process of working underlying congestion to the surface. These treatments include double cleansing, enzyme exfoliation with steam, extractions with high frequency, LED Light Therapy, and finish with a specially-formulated Chemical Peel. There may or may not be some dryness or peeling following these treatments for a few days.

## Acne Treatment Series **\$600**

An intensive acne bootcamp. Includes 1 Acne Consultation & Treatment and 5 additional Acne Treatments to be scheduled biweekly. Receive 15% off all home skincare products while participating in this package of treatments. This is the best way to ensure success!

## Acne Back Treatment

**\$125**

Our acne treatment, but for the back! We use stronger products and recommend different home care for this more resilient area.

# Add-on Services

*Elevate your clinical service or facial*

## Add-on Dermaplaning **\$35**

Some clinical treatments like HydroFacial and Oxy-Glow do not include Dermaplaning. Add it on for a reduced price!

## Add-on Mask **\$25**

Most treatments include our customized hydrojelly mask, but select this option to add increased hydration and relaxation to our Instant Radiance Treatment, Dermaplaning, or Microdermabrasion treatments.

## Add-on Stem Cell Infusion **\$50**

## Add-on Lip Treatment **\$200**

## Add-on LED Light Therapy **\$35**

LED light therapy is a painless, relaxing, non-invasive skincare treatment that has multiple benefits: stimulating collagen, treating acne, healing, calming inflammation and brightening tone. Perfect for all skin types and conditions, this service can be added to any treatment.

## Add-on LED Hand Light Therapy **\$35**

## Add-on Photodynamic Acne Therapy \$50

A Nano Infusion of ALA-13 and blue light LED light therapy combine to help resolve breakouts and regulate oil production in the skin.

# Lash Services

## Lash Lift \$60

Natural lashes appear longer and fuller with this service, which curls them up so you can see their full length.
